# QCWA Journal

Volume XLI, No. 2

Summer 1992

President of Hudson Valley Chapter 181, Dick Robinson, W2OZA (left), receives the group's charter from Francis Percival, W2DP. Francis, who is QCWA #569, was first licensed 72 years ago. (That's Director Sy Yuter, W2NBT watching.) Read how Chapter 181 began in Chapter Reports, page 45.

## PRESIDENT'S NOTES . .

In the last issue of our *Journal*, this column ended as follows: "I'm looking ahead for the good old days . . . are you?" The theme for that column was that lots of really good things in Amateur Radio are still to come.

We are on the cutting edge of dynamic developments in the use of digital techniques. Microminiature circuitry is becoming yet more micro and engineers are anxious to utilize the new chips to their fullest extent. For many of us, the days of design and development have possibly passed and we have become dependent on the new, younger developmental minds of today's engineers to lead the way where some of us had possibly forged the pathways earlier.

Among the plaques and certificates on the wall of my radio shack is one entitled, "Satellite DX Achievement Award." It was awarded to me almost 20 years ago for contacting six or more countries via the old OSCAR 6 satellite... two meters up and ten meters down. I kept schedules in those days via OSCAR 6 with my son, WB2UZU (now a QCWA member), while he was a student at Johns Hopkins, WA3EPT. It was fun, but tough because satellite passes often times provided only a few minutes of contact time.

However, as the decades have passed, Amateur Radio satellite development has proceeded at an astounding pace with our satellite engineers and technicians constantly pushing technology as only a group of dedicated Amateurs can. You now see DXCC, multi-country roundtable discussions and many hours of contacts possible on a Satellite such as OSCAR 13. As the saying goes, "We've come a long way, baby!" Maybe so, but not really according to some.

#### **Next: Phase 3D satellites**

In discussions with those who are dedicated to the development of still greater, more versatile satellites, the earlier successes are only an introduction of things to come. There is now talk of a Phase 3D Satellite. It's more than talk! It will be reality! This satellite will be higher powered with better receivers and will utilize Amateur Radio bands in the microwave spectrum where modest ground terminal power and antennas will thrive. It will be something which will prove that the truly "good days" are still to come.

Where do you and I fit into this picture? Well, one thing which is absolutely certain for me . . . and possibly a large number of QCWA members . . . is that I'm not going to be in a position to design, develop and test the hardware and then prepare for its launch. Do you share that position? We in Amateur Radio are very fortunate that the talent to perform those operations is available within the satellite development community. In the United States this talent is called the Radio Amateur

Satellite Corporation (AMSAT). Global involvement is already in place with JAMSAT (Japan) and AMSAT-DL (Germany) already underway along with others in the Amateur Radio space communications community. The talent search is complete. The engineers and technicians are at work.

This leaves one important point outstanding. It is a one-word problem which requires solution. The word is spelled, very simply, FUNDING. It is the only way in which many of us can support this tremendous Amateur Radio satellite undertaking.

#### I urge you to help AMSAT

Yes, I know, all of us are besieged by agencies asking for our dollars in support of all forms of causes. Each day's mail brings still more requests for financial assistance. Many of these requests are often thrown into the waste basket with barely a notice. In my case, my wife Kay and I first have a discussion about where our donations will go. After agreement, the donations are made.

Your organization, the QCWA, supports educational and scientific causes as part of its basis and purpose for being. In our case, this support takes its strongest force in our scholarship program which aids many students in their pursuit of higher education. We could make a modest donation to the satellite funding effort, but it is considered that this effort is one which belongs to all our Amateur Radio family interested in the future.

Support from you, our members, made directly to the AMSAT organization is the way to go. I personally urge you to do whatever you can to assist in this look into the future. That "Satellite DX Achievement Award" on my wall is only a small stop along the way to the "good old days" ahead.

73 . . . Harry, W2HD

In February I visited Royal Palm Chapter 152, where my brother Frank, W2DRL was welcomed as a new member. In the photo with me are Parker Heineman, W1YG (left) and Vernon Avant, W4NVS, Chapter 152 President (right).

## From the General Manager . . .

I ime does go by when you are having fun. Just a few months ago I was wondering how I ever got involved in this job, and now it suddenly seems like I have been here for ages.

Much of that confidence comes from you, the members, in your cooperation and good wishes. Our job has been to meet your needs as quickly as possible and to constantly feed more information to the data base.

At the present time we have sent in several large orders for QSL cards, and have a backlog for the T-Shirts and Sweatshirts. Hopefully that will be a short term situation.

Last month was my first visit to Dayton and what a show that is! We had a wonderful time with the chapter members and obtained some 48 new members and a host of renewals. The nicest part was greeting some old friends and making some new ones in the process.

Mail is being slowed down. Seems that the Irving address is well instilled in the minds of our membership. We have a forwarding card at the Post Office in Dallas, TX, and when they get mail for QCWA they affix a yellow tag and send it to Eugene. What is more amazing is that the mail—such as a membership renewal—has the new Headquarters address, yet it was sent to Texas.

We are constantly searching to find the status of members for whom we have had no contact in recent years. Many of these are finally reported to us and we find that they are Silent Keys. Records are being kept and it is planned that those misplaced members who are Silent Keys will be identified in the overall Silent Key listing as published in the *Triennial QCWA Membership Directory*.

We do get numerous calls about a member not having received any communications from Headquarters for a year or more, and they wonder what has happened. Generally a quick check with the data base shows that we do not have the proper address for the member, and they admit having moved a year or so ago. Further checking with another data base also shows that they failed to maintain their correct address with the FCC.

Ballots will have been mailed by the time this arrives and I do hope that you will take the time to cut the ballot loose from the mailing, mark your preferences for five Directors, place a nineteen cent stamp on the card and drop it in the mailbox.

For some reason we don't get many photos of our Veep, Lew McCoy, W1ICP. Here is one of Lew and his wife Martha at the celebration of their 53rd Anniversary. As Lew says, "It's Hell to get old when you have a good-looking wife."

73, Jim Walsh. W7LVN General Manager

#### **Hudson Valley Chapter 181**

The first meeting of the newly-chartered Hudson Valley Chapter 181 was attended by 29 members and wives on March 21. It was a buffet luncheon catered by Vincent Doria's Restaurant in the Ramada Inn, Elmsford NY.

The Charter was presented to Dick Robinson by Francis Percival, W2DP, QCWA #569, whose license was issued in 1920—72 years ago! An interesting story of how Chapter 181 came to be formed was told by Sy Yuter....

After they had retired, several former commuters to New York City found it not easy to go into the City to attend Chapter 46 meetings. Sy, Harry Moore, and others took hold of the problem. Building on an informal monthly luncheon group—the ROMEOS (Radio Operators Monthly Eating Out Society), they signed up enough members of QCWA to meet the charter requirements.

Above, seated with Chapter 181 charter, are President Dick Robinson, W2OZA (left) and Secretary Dick O'Brien, NJ2J. Standing are Directors Sy Yuter, W2NBT and Ken Shimazu, N2GP. Shown below (behind, left to right) are Directors John Larmon, WE2H and Herb Nordholm, W1IAO with Treasurer Harry Moore, W2JQS (left) and Vice President Julian Heilbroner, WD2ADT in the foreground. Welcome to QCWA, gentlemen!

There seems to be great interest in the new chapter, which includes members from Long Island, Connecticut, the west side of the Hudson River, and upstate New York, plus a number who are residents of Westchester County. It is expected our group will grow into a sizeable and active chapter in a short time.

Dick O'Brien, NJ2J 50 Quinn Rd, Briarcliff Manor NY 10510

#### Founders' Chapter 46

Founders' Chapter 46 held its annual U.N. meeting on March 26, with a luncheon held in the delegates' lounge. The menu consisted of many varieties of exotic—as well as everyday—food, followed by a number of different desserts.

Chairman Tim, KC1EZ helped with the collection for the meal as well as with dues. This was a big help to the Secretary, who was busy taking pictures and trying to eat. John, KA2IXW, our Vice Chair and QCWA Director, spoke regarding his travels as well as the coming QCWA Directors' meeting and the Quest of QCWA for the future. After lunch some members remained to take the regular tour of the United Nations.

Harold Camptell, W2IP, was not able to attend the meeting, so W2AUF and Frank, W2DP went to Harold's home and presented him officially with the QCWA 75 Year Award. Harold then treated us to lunch in his home town of Mount Vernon.

Ninety-years-young Harold Campbell, W2IP (left) receives his QCWA 75 Year Gold Certificate from David Winter, W2AUF.

David W. Winter, W2AUF 84-26 87 St, Woodhaven NY 11421

#### **Royal Palm Chapter 152**

Starting with the December meeting, the Royal Palm Chapter has been gathering at the Countryside Country Club on Davis Boulevard in East Naples. The Club provides us with a very delicious buffet luncheon. In December we had poinsettias as table decorations which were awarded as prizes to one of the ladies at each table.

The election of officers for 1992 was held at the December meeting, and the slate selected was: President, Vernon Avant, W4NVS; Vice President, Robert Kobzina, W4LZV;

and Secretary-Treasurer, Myron Kelley, W4VQE.

The February meeting was a very special one as we were honored with the presence of QCWA President Harry Dannals, W2HD. He had come to Naples to visit his brother, Frank, W2DRL, whom we were glad to welcome as a new member of our Chapter. Harry spoke briefly about QCWA and the new headquarters in Eugene, Oregon.

Member Parker Heineman, W1YG then presented us a very interesting talk on antique radios of all kinds—from the very earliest spark transmitters and coherer detectors through crystal receivers and very early broadcast receivers, and finally amateur equipment up through WW II. Matt Baker, K4FA also entertained us with a couple jokes from his extensive collection. The meeting was well attended, with 20 members and 16 guests present.

We expect to continue our meetings on the second Tuesday of each month at the Countryside through the winter season. During the summer, when many of our members go North, we will continue to meet, but may have to make other arrangements. We try to keep contact with members through our nets on 20 meters—14178 kHz at 0800 MWF and 1300 TTh (EST or EDT).

Myron T. Kelley, W4VQE 1814 Village Ln. Naples FL 33963

#### North Texas Chapter 114

A regular meeting of the North Texas Chapter 114 was held at 11:30 a.m. Saturday, March 21. at Luby's Cafeteria in Wichita Falls, TX.

The meeting was called to order by President Joe Boucher, W5NQD. There were 12 members and XYLs present. Minutes of the last meeting were read and a financial report given by Secretary-Treasurer David Combs, W5VJW. Minutes and the financial report were approved as read.

New business attended to was the setting of the next meeting for May 23 at 11:30 a.m. at Luby's Cafeteria. Old business was the further postponement of the installation of Paul Gose, W5CJE as a Chapter Director because of his continued illness. Joannie Sleeper, XYL of WB5PHM, presented all the XYLs there with beautiful African violets.

With all business conducted, the President then presented the program. He first reported on his activities in introducing parents and students in the city of Burkburnett, TX to amateur radio. He then showed an ARRL videotape entitled *The New World of Amateur Radio*. The program was enjoyed by all, and Joe was given a nice round of applause when he finished.

David I. Combs, W5VJW 2000 Victory Ave, Wichita Falls TX 76301

#### **Baton Rouge Chapter 109**

QCWA Chapter 109 met for a breakfast during the Lafayette, LA hamfest on March 20 and 21. Attendance was excellent, with members there from several states.

Warren Aubin, K5DVQ, our Chapter Secretary/Treasurer, was presented with a framed Meritorious Award for his devoted and hard work for our Chapter.

Warren Aubin, K5DVQ (right) receives a Chapter 109 Meritorious Award from "El" Charlton, W5MD.

We are sad to report the demise of Jerry Butcher, W5FCG, who became a Silent Key just prior to the hamfest. Jerry will be missed very much as he was a devoted member of Chapter 109. We also lost two ex-members of QCWA and our Chapter—Wilbur Golson, W5CD and Sandy Sandefur, W5AXD, who passed away in March and April.

Again we cordially invite and encourage any QCWA member to join us on Sunday morning's "on the air" meeting. The frequency is 3905 kHz at 8:30 A.M. Central time, all year long.

E.B. "El" Charlton, W5MD 1533 Outrigger Dr. Baton Rouge LA 70816

#### **Harrisburg Chapter 37**

Chapter 37 held its quarterly meeting on March 14 at the Bonanza Steakhouse. Twenty members and one guest were present. The meeting was called to order at 12:30 p.m. Minutes of the December meeting were read and approved. K3WKK reported that the third call area QSL bureau was looking for help in sorting cards.

Election of officers followed. New officers are: President, Marshall Stenger, W3KRM; Vice President, Glenn Kurzenknabe, K3SWZ; Treasurer, George Kabroth, W3PLI; and Secretary, Dave Barrows, W8IJ.

David O. Barrows, W8IJ 271 E Crestwood Dr. Camp Hill PA 17011-1209

#### **Houston Chapter 27**

Six Houston Chapter 27 members—together representing 401 years of ham radio experience—were recently awarded QCWA Gold Certificates celebrating anniversaries of their first licensing. Scated, from left, are D. C. Larson, W5CQI, 60 Years; Carlton N. Hughs, W5JT, 70 Years; G. D. Sears, W5AIR, 65 Years; and J. A. Edinborogh, W5BKK, 60 Years. Standing, from left, are Ken Perron, W5JYM, 50 Years; Frank C. Neal, Jr., W5KLI, 55 Years; and L. Ruetz, WA5RDO, 50 Years. Three others, whose experience totals 170 years, were unable to attend. They are J.F. Blair, W5BWG, 60 Years; J. Newell Royall, W5HU, 60 Years; and C.C. White, W5FEM, 55 Years.

Ted Sumerlin, N5RKM 5317 Grand Lake, Bellaire TX 77401

#### **Beaver State Chapter 108**

The Beaver State Chapter met on February 29 at Nendels Inn, Eugene OR, with 33 members and guests present for the luncheon meeting.

It was proposed that the Chapter change its quarterly meeting months to fit in with the quarterly schedule of the *QCWA Journal*, so that our advance meeting notices in the *Journal* would serve as timely reminders to all who wish to attend. Final decision is to be made at our next meeting.

Our program included a memory test of well-known slogans used by "radio advertisers" in bygone days of the 1930s. The responses were quite interesting.

The April 11 meeting was held at the Pineway Golf Course Restaurant, Lebanon, OR, with 28 members and guests. The Chapter formally approved a new schedule of quarterly luncheon meetings which will be held on the third Saturday of January, April, July, and October. The October

meeting will be the Annual Meeting at which the election of officers will be made for the next calendar year.

The Chapter will re-institute a weekly radio net with all members being invited to participate. It will be a high frequency net as our members are too widely dispersed for satisfactory coverage by 2 meters. The net is to begin operation on Wednesday. April 15, on 3908 kHz at 8:15 A.M. with Mike Strahon, KM7T acting as NCS. The net is another way of keeping up on Chapter events.

Our guest speaker was Marlene Susnik, KD7TP, a local elementary school teacher who has been using 2 meter amateur radio contacts in the classroom to motivate her eight- and nine-year-old students into thinking what to say to strangers, looking up in reference books where the other person lives, determining how far it is to his or her station, etc.

Marlene's students have discussions prior to the contacts so that only single questions will be asked. Room discipline

is a requirement, or contacts are cut off. To expand this new amateur radio classroom experience into learning more about the world, a local radio club is scheduled to provide an HF radio station. In the future will come help with licensing requirements.

Fred Dickson, W7LBH 38566 Parkside Rd NE, Albany OR 97321

#### **Canton Chapter 21**

Chapter 21 held its regular quarterly meeting on February 15 at Samantha's Sunny Corner Restaurant in Canton. This was an afternoon affair, and we hope to get feedback from our members regarding daylight meetings as compared to those in the evening. Some of our members cannot drive after dark. The meeting was called to order by the President, John Edel, K8LBZ. Attendance at the meeting was 39 people.

Our program was on the subject of home security, given by Ron Jeskey of the Stark County, Ohio Sheriff's Department.

Framed Certificates of Appreciation were handed out by K8LBZ to workers and committee persons for their efforts in making the 1991 QCWA National Convention, hosted by Chapter 21, a success.

Chapter 21 has suffered the loss of three members who became Silent Keys within a ten-day period in March, 1992. They are: Bob Cairns, WA8RQX; and charter members Bob Rogers, W8NWR and Henry McLaughlin, W8OYV, who was our Chapter Editor and Historian.

Dave Glass, W8UKQ has agreed to assume the task of being Chapter 21 Historian. Thank you, Dave.

Bill Parks, K8NZN has stepped forward to assume the editorship and printing of our Chapter 21 quarterly newsletter. Bill had already been doing the stencil-cutting, label preparation, and distribution of the newsletter. Thank you to Bill and his assistant, XYL Mickie.

"Big John" Edel, K8LBZ will be attending the QCWA Directors' meeting in Eugene, OR in April. We await his report on the new Headquarters facility.

Our next quarterly meeting will be an evening session at Bassetti's Restaurant in New Philadelphia, OH, on May 16.

Stanley L. Smith, WA8NZE 6201 Fair Acres SW, Canton OH 44706

#### York County Pennsylvania Chapter 165

Our first quarterly meeting of 1992 was held on March 14 at the Embers Restaurant, York, PA. Ten members and three visitors were present.

After having dinner, President John Shaffer, W3SST called the meeting to order. A business meeting was conducted, after which we enjoyed our program—a visit by local cable channel 23.

Cable channel representatives were there to interview

each member as to how they first became interested in ham radio—who was their first contact, how long had they been a ham, and what interesting events occurred during their years as a ham. Photographs were taken of early equipment brought in by Chapter members. This program is to be aired on cable channel 23 in the near future.

The Chapter recognized two members who became Silent Keys in December, 1991: William Boyer, W3AMQ and Robert McClain, W3WCU.

Two of our members participated in the 1992 QCWA Phone QSO Party: Paul Stumpf, W3AQN and Edward Kirby, Jr., W3YQJ. The meeting adjourned at 1310 hours local time.

Edward H. Kirby, Jr., W3YQJ 2325 Sycamore Rd, York PA 17404-4131

#### **Gator Chapter 32**

At a recent luncheon at Stacy's Restaurant, Art Monsees, W4BK (at right in the above photograph) received his QCWA 60-Year Gold Certificate from Gator Chapter President Bart Bridge, W2ZYQ.

Except for his college days and the war years, Art has been active since obtaining his first license in 1932, and says, "I enjoy amateur radio as much today as when I first put a pair of type-45 tubes in a push-pull circuit to an end-fed zepp antenna in 1932."

During 20 years' service in the US Air Force plus more years in Federal civil service, Art has also operated as W6HJP, DL4AY, KR6AM, EP2AM, and KH6AK. His XYL, Ruth, N4WQN (Why Quit Now) has gone from Novice to Advanced in the four years since they were married.

Art and Ruth keep several antennas on the roof of their 15-story retirement center, overlooking the Intracoastal Waterway and downtown Clearwater. They both look forward to seeing everyone at the 1993 St. Petersburg QCWA Convention.

Art Monsees, W4BK 420 Bay Avenue, Apt 1521, Clearwater FL 34616

#### Suwannee Chapter 62

The Suwannee Chapter held its first meeting of 1992 at Stacey's Buffet (formerly Don's Smorgasbord), 36th Avenue, Ocala FL, on February 25. There were 53 members and guests present. The remainder of our meetings for 1992—April 23, June 25, August 27, October 22, and December 10—have been scheduled at Stacey's. We welcome visitors to all of our meetings, which start at 11:30 A.M. Come early and enjoy an eyeball QSO.

Incoming President Doug Morick, W3NNT introduced the officers for 1992. They are: Vice President, Bill Menner, K2YMQ; Secretary-Treasurer, Daisy Coleman, W4QAV; Directors Art Anderson, W4DZR; Rollo Medler, W4ANN; and Ray Chartier, W1FRE (our ex-President). Ray, W1FRE received warm applause in appreciation for a fine job as President.

We were pleased to have as a guest Curren Shutt, W8FSZ, who is Secretary/Treasurer of Michigan QCWA Chapter 10. We hope that he will be able to visit with us

often. The invocation was offered by Bob Henry, W4PFQ.

After lunch our guest speaker was Mrs. Angela

Gunther from the Internal Revenue Service. Her talk on a

subject so vital to all of us was most informative and very

enjoyable.

We were pleased to welcome three new members: Philip (Phil) E. Grande, WA2BZE; John (Russ) E. Russell, K4FNU; and Olie P. Quist, K1HYL. We extend a hearty welcome and look forward to them becoming a part of our family.

On a sadder note, we accepted the resignation of Ed Gaudet, K4BRC as Net Control Manager of our Suwannee Chapter Saturday Net. His devoted service for the past 12

years is greatly appreciated.

We are pleased to announce that the Net will now be in the capable hands of Adis Henry, W4PFJ, who graciously accepted the position. Adis' credentials are well known and we look forward to her leadership.

We invite all members and guests to check into the Suwannee Chapter Net which meets every Saturday at 9:00 A.M. local time on 3940 kHz. Chapter news and general information plus personal comments are the order of the day.

Until next time-73.

Doug Morick, W3NNT 8680-J SW 94th Ln. Ocala FL 32676

#### Suncoast Chapter 53

The QCWA Suncoast Chapter held their regular monthly luncheon meeting at the House of Chong on February 6, with 60 members and guests present. Vice President John Karban, W3IGC, ran the meeting, as President Art Miligan, W8KW was absent due to an arm injury and subsequent operation.

After the Secretary's and Treasurer's reports, member-

ship rosters and phone lists were distributed. No program had been arranged, so Lloyd Pfahler, W8FKL told one of his fanciful tales about his drinking Great Uncle and his explosive demise.

At left, above, Bob Bookwalter, W4NWF, demonstrates Morse telegraphy at the March meeting of Suncoast Chapter. The right photo shows Chapter 53 Secretary John Fogle, WD7H (left) and Vice President John Karban, W3IGC.

Seventy members and guests attended our March 5 luncheon. President Art Miligan, W8KW announced that Secretary Lloyd Pfahler, W8FKL had been in the hospital but was now at home and doing well. Al Hiser, K4FTX has had three strokes but is doing well in therapy. Mary Ryden, K8ONV was appointed Chairman of the Nominating Committee.

Bob Bookwalter, W4NWF presented the program, which he began with his first interest in telegraphy when he worked one summer as a Western Union messenger boy and learned American Morse.

Bob explained how the early equipment was wired and what batteries were used—Crow's Foot Cell (line batteries) and Sal Ammoniac Cell (station batteries).

He then sent the eleven letters of American Morse which are different from those in Continental Morse. Some in the audience were able to read the sounder. Bob closed his talk by explaining the use of telegraphy in railroading, then ran a miniature steam locomotive, complete with sound effects.

Our April 2 luncheon at the House of Chong welcomed 58 members and guests. Mary Ryden, K8ONV's Nominating Committee presented the following slate to be voted on at the May meeting: President, Art Miligan, W8KW; Vice President, John Karban, W3IGC; Treasurer, Larry Pearsall, W9FDY; and Secretary, John Fogle, WD7H.

> Bob Bookwalter, W4NWF 728 Valencia Rd, Venice FL 34285-2141

#### Colonial Chapter 166

It's picnic time again! Colonial Chapter 166's picnic will be held July 29 at W3FEA's QTH "up in the trees and the breeze." Bill, W3FEA also has an antique radio museum—when you are in the area stop by and see this friendly curator. Jim, W3AOA chairs this catered picnic, and what a fine job he does.

Bill Clark gave a program on genealogy during our April meeting at the Newtown Squire. Al, W3JIL has

brought in two new members.

I recently visited the Pelican Chapter in Florida and had lunch with our national Treasurer, Wes Randles, W4COW and his lovely wife, Blanche, W4GXZ. They are actively working on the 1993 QCWA National Convention. You won't want to miss this one. Plan for it now.

Charlie Stouth, W3ZPP

261 Prince Frederick St. King of Prussia PA 19406-2211

#### **Long Island Chapter 81**

The bi-monthly dinner meeting of Long Island Chapter 81 was held on April 15th, with the best attendance in several years. We filled the dining room almost to capacity with 35 members and guests.

Before starting the official meeting after our social portion, we observed a moment of silence in memory of two recently deceased members—W2MT (QCWA #5647) and WB2GNA (QCWA #20509). Thereafter we proceeded with officer reports and other business, followed by the presentation to K2ROG. Bob Lochner, of his certificate attesting to 50 years as a licensed amateur.

After the picture-taking ceremony, we introduced our speaker, a gentleman from Long Island Lighting Co., whose text was essentially on household safety, emphasizing the need to ground everything. After several callbooks were raffled off, the meeting was adjourned and everyone went home happy.

Bob Lochner, K2ROG (left) receives his 50 Year QCWA Gold Certificate from Herman Milatz, W2TLC.

Herman Milatz, W2TLC 1836 Gardenia Ave, Merrick NY 11566

#### **Atlanta Chapter 49**

The Spring meeting was held on March 14, 1992 at 6:00 P.M. at Morrision's Cafeteria. A large number attended the meeting.

Following the excellent meal and introductions, the door prize (a Chapter 49 QCWA mug) was won by Phil,

K4FXB's XYL, Mickey.

Formal discussions resulted in the Chapter agreeing (1) to expend reasonable funds to advertise in local ham newsletters; (2) to approve Chapter 49's participation in other local hamfests; (3) to approve a one-time Chapter 49 fifty-dollar donation to Martha Clark, KD4KEY, who is assisted by MATPARC, to aid in her ham-related educational activities for middle school students; and (4) to consider having the next meeting in conjunction with the Atlanta Hamfest at the Southeastern DX (SEDX) meeting.

Ben Adams, K4EZ, was awarded his QCWA Gold Certificate for 65 years! Ben was "tickled pink."

Presenting Atlanta Chapter 49's donation to support ham-related educational activities for middle school students are Jim Stafford, W4QO (left) and President Bill Plage, W4DQT. At right, Ben Adams, K4EZ holds his 65 Year Gold Certificate Award.

After the formal business, Jim Stafford, W4QO, of Metro-Atlanta Telephone Pioneers Amateur Radio Club (MATPARC), and a Chapter 49 member, gave a very interesting presentation concerning the many varied activities and events supported by MATPARC.

It was thoroughly enjoyable and entertaining, and we closed the meeting at 8:00 P.M.

Jud Whatley, W4NZJ 2156 Windsor Dr, Snellville GA 30278

#### Sacramento Valley Chapter 169

The Sacramento Valley Chapter 169 of QCWA has been meeting for over two years at Lyon's Restaurant, 1000 Howe Avenue, Sacramento CA (near Fair Oaks Avenue) on the second Wednesday of each month. A sit-down breakfast starts at 7:30 A.M., after which a regular meeting is conducted, usually starting at 8 A.M. We usually have a speaker, followed by a prize drawing.

All QCWA members in the Sacramento area are cordially invited to attend, along with visitors and prospective members of QCWA. Phone Paul Wolf, W6RLP, President, or Bill Hendrick, NS6D, Secretary/Treasurer, for more information. The Chapter now has 30 members.

On Wednesday, February 12, we heard a talk by the Sacramento County Communications Department. On Wednesday, March 11, we had a speaker from Station KFBK, the 50KW AM broadcast station in Sacramento. Next month's meeting will feature a speaker from tv station KCRA. All of our speakers are interesting and talk on subjects related to radio and electronics.

We do a lot of socializing and after the meeting conduct a "bull session" on the old days of ham radio. Please try to attend our meetings.

> Paul L. Wolf, W6RLP 4812 Peale Dr. SAcramento CA 95842

#### Southeast Florida Chapter 12

During the past quarter, Southeast Florida Chapter 12 celebrated its twenty-fifth anniversary of QCWA Charter membership. The occasion was celebrated during a regular monthly meeting with a beautiful and delicious cake baked by Marion Rauch, WB4RFB.

As in previous years, the Chapter once again contrib-uted to membership expansion by hosting a hospitality booth at the huge Miami Hamboree. In addition to providing refreshments to visiting hams and guests, the members provided space to the QCWA Headquarters staff in their recruitment efforts at the Hamboree.

A special mention must be made of the untiring efforts of Kitty Starr, K4PME, who not only provided the most delicious chocolate brownies, but tirelessly assisted visitors and guests visiting the hospitality booth.

In December the Chapter once again enjoyed our annual election and picnic meeting. This year the event was held at the Coast Guard Radio Station in South Kendall. Because we were on the radio station grounds, we were unable to place in operation the *circa* 1910 spark transmitter provided by Tommie Jones, KB4OI.

The Chapter is looking forward to 1992 as a year of increased membership and zero Silent Keys.

Sid Wolfeld, KJ4AS 2021 NW 35th Terr, Coconut Creek FL 33066

#### San Antonio Chapter 38

San Antonio Chapter 38 meetings begin the fourth Saturday of the month around 11:30 A.M. when we go through the food line in time for our 12:30 meeting. There is usually a program which is interesting to the gals—as well as the guys.

Our current officers, pictured above, are now in their third year in succession: Treasurer, Johnny Bruemmer, W5LVE; Secretary, Frances "Gabby" Bruemmer, W5KQG (51 years licensed!); Vice President, Gus Gikas, W5HRF; and President, Louis Koeurek, W5VIV.

This photo is of San Antonio Chapter 38 members (left to right) Les Essington, W5BE (licensed 71 years); Venable Fitzhugh, W5VL (licensed 70 years); and Jimmie Rives, W5JC.

Frances Bruemmer, W5KQG 1934 Arroya Vista, San Antonio TX 78213

#### Central Arkansas Chapter 158

Central Arkansas Chapter 158 presented QCWA Anniversary Awards to members pictured above: First row (l-r) Pem McRae, W5EKD; Cecil Suitt, W5AYH; Second row (l-r) Elmer Wingfield, W5FD; Tom Spencer, W5IGM; and Harold Harrison, W5DFZ.

The Summer meeting of Central Arkansas Chapter 158 was held on September 21, 1991 at the Baptist Medical Center in Little Rock, AR.

President Thomas A. Spencer, Jr., W5IGM presented 55-Year QCWA Anniversary Awards to Harold W. Harrison, W5DFZ: J. P. "Pem" McRae, W5EKD: Cecil L. Suitt, W5AYH; and Elmer A. Wingfield, W5FD. A 50-Year Award with corrected first year of license was presented to Thomas A. Spencer, Jr., W5IGM.

Following the awards presentation, W5IGM gave an excellent program concerning solar activity and the effect of sunspots on radio propagation.

The Fall meeting was held at the same Little Rock location on November 23. After lunch and a business meeting, President Tom Spencer, W5IGM invited each of the nine members in attendance to describe their first radio station and early operating experiences. The discussions that followed were extremely interesting, and could have gone on for days!

Chapter membership now stands at 29 and growing. Members who joined in 1991 include Larry Ballentine,

N5BZB; Roger Bargar, WA5QMQ; Herman L. Cole, W5YDP; Glenn A. King, N5DFB; Elmer P. Orvis, KD5KE; and Ray C. Parker, K5LJC. Welcome aboard, gentlemen, and we look forward to your attendance at our quarterly meetings.

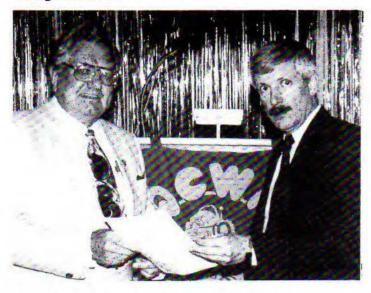

J. Phil Powledge, K5SVS PO Box 3171, Little Rock AR 72203

#### QCWA Journal on cassette . . .

The *QCWA Journal* is available on cassette tape for members who have trouble reading the printed edition.

Write to: Blanche Randles, W4GXZ 6002 N Fremont St Tampa FL 33604

#### Leo I. Meyerson Greater Palm Springs Chapter 154

Guest speaker at the Chapter 154 Spring Luncheon was Rusty Epps, W6OAT (right), shown here with President Don Doughty, W6EEN. Rusty is a very well-travelled contester and DXpeditioner, and he talked about DXing, land use concerns, and towers.

Photo by Jim Walsh, W7LVN

#### **Inland Empire Chapter 130**

The Inland Empire Chapter 130 held its Spring luncheon meeting at the Hap Arnold Officers' Club, March Air Force Base, CA, on March 14. Forty-eight members and guests were in attendance, including former QCWA Director Leo Meyerson, W0GFQ, who was the pianist for a joyful sing-a-long as well as the guest speaker of the day.

Leo narrated a slide show about The Leo Meyerson Collection and QCWA Collection of radios exhibited in the Western Heritage Museum in Omaha. Leo has been working hard to bring this exhibit to reality and his talk was very informative.

President Bob Rickey, NF6P expressed appreciation to those members from five neighboring chapters who attended the affair.

A potluck lunch and picnic will be held in Memorial Park, Upland, CA, July 1, beginning at 11:00 A.M. All QCWA members, At Large or from any chapter, and their guests are invited. They should bring enough potluck food to feed their own party plus a little extra. Bring place settings and an old table cloth, too. Talk-in will be on 147.54 MHz. Those who have an interest in this picnic are requested to put the date on their calendars now. Notification by mail is impractical.

Bob Rickey, NF6P 8532 Country Club Dr, Cucamonga CA 91730

#### Central Florida Chapter 107

Our new monthly meeting place is Stacey's Buffet, 4320 US Highway 98 North, Lakeland. The site is approximately one mile north of the US 98N-I-4 intersection. The facility was previously known as the Foxfire Inn.

Meetings are the third Saturday of each month, starting at 11:30 A.M. Spouses are welcome and the programs are always on topics of general interest. QCWA At-Large members in the Lakeland area are invited to join us. More information can be had on our 7243 kHz net each Saturday at 9:00 A.M. Meetings during June, July, and August are social—no business is conducted.

Snowbirds who live elsewhere during the summer are invited to join our Thursday net, 14245 kHz at 12:30 P.M. For more information on our chapter you can also phone President Dan Child, W3IUW, (813) 325-8331 or Vice President Roy Coleman, WA4OZA, (813) 682-4466.

Chapter 107's 1992 officers are (from left) Vice President Roy Coleman, WA4OZA; President Dan Child, W3IUW; Secretary Jav Hitchcock, K8YGH; and Treasurer Frank Mason, W4TIC.

"No matter how old you get, if you can keep the desire to be creative, you're keeping the man-child alive" John Cassavetes

Jim Gundry, W4JM 2908 Forestgreen Dr S, Lakeland FL 33811-1616

#### Missouri Chapter 19

Missouri Chapter 19 of QCWA meets on the second Saturday of each month at Shoney's Restaurant in Sunset Hills, MO (suburban St. Louis). We have lunch at noon and our meeting follows. Seventeen or more of our 26 members attend regularly.

A program related to radio technology is presented at each meeting. For example, "The Secret Weapon of WW II" by Steve Geis, WØKOC; "TVI and RFI Abatement in

Belgium" by Renee VanMuysen, ON6VY; "Telecommunications in Egypt" by Ed Corey KD0OB; and "Grounding Seminar" by Roger Volk, K0GOB.

Typical meeting agendas include reports, communications, and discussion of old business, new business, and amateur radio, followed by, of course, our program.

Officers for this year are Chairman, Jim Burkhart, W0BA; Vice-Chairman, Lawrence Schwarz, W0CDA; and Secretary-Treasurer, John Rogers, WA0OMA. Trustees are Elmer Pearson, W0EU; John Davison, W0ZFN; and Carl Widell, KD0IR.

Missouri Chapter 19 officers for 1992 are (from left) Chairman Jim Burkhart, W0BA; Vice-Chairman Lawrence Schwarz, W0CDA; Secretary-Treasurer John Rogers, WA0OMA.

Missouri Chapter two-meter net meets Wednesday at 1900 local on 147.15 MHz with Melvin Mayo, NØAQH as Net Control. All visitors are welcome to check in. Ray Widaman, WØDFT monitors and reports on QCWA "On the Air Meetings."

Missouri Chapter was organized on March 4, 1963, so we look forward to our 30th anniversary in the coming year. Greetings to all our friends in QCWA, and we extend our very 73 for the coming year.

John R. Rogers, WA00MA 10332 Richview Dr, St Louis MO 63127

#### Southeast Wisconsin Chapter 162

The regular monthly chapter meeting for February was held at the Around the Clock restaurant at 7:30 p.m. Monday, February 17. Announcement was made that the chapter had been selected to count ballots for the 1992 QCWA international election. A computer program is being provided by Chapter 89, who did the 1991 count.

The March meeting consisted mostly of planning for the ballot count. Final plans will be completed at a meeting of the Ballot Counting Committee appointed by the Chapter President. At least four computers capable of running the program are available within the chapter.

The April meeting was a potluck brunch hosted by President Ed Konicek and his wife Marie at their home.

Bill Komistra, W9OVZ (left) received the Racine Area Ham Clubs' "Ham of the Year" award at the February Racine Area Ham Banquet. Chapter Secretary-Treasurer Bob Jensen, W0WLN (right), who received the award in 1990, made the presentation.

Chapter members and wives enjoyed excellent food and good fellowship, and greeted a new member, Ken Knoff, N9NBC and his wife Marbeth. Ken was presented his Chapter QCWA name badge. Chapter members K9ZL, W9GKM, and W9OVZ will be presenting ham radio demonstrations for graduates of Gifford Elementary school at their camp-out in May. The spirits of the gathering were dampened somewhat by the announcement that member Herman Bielefeld, W9SFK had become a Silent Key on April 15.

Robert N. Jensen, W0WLN 5615 Cambridge Ln #6. Racine WI 53406-2870

#### Kansas Chapter 110

The Spring meeting of Kansas Chapter 110 was held on Saturday, March 28 at The Kirby House in Abilene, KS. There were 24 members and guests present.

Secretary Jim McKim, W0CY read the minutes of the December meeting, held at Manhattan. The minutes were approved and then Jim gave the Treasurer's report, which drew smiles as we were still in the black!

President Wendell Wilson, W0TQ urged all radio club members present to talk up the Kenwood program as a really worthwhile method of getting new blood into the amateur radio ranks, and also a benefit to the club.

Each member then identified himself and gave a brief description of his work since the last meeting. President Wilson then asked if the Chapter would like to have the next meeting in September, in conjunction with the Kansas Nebraska Radio Club hamfest. There were no nays, so our next meeting will be in Concordia in September.

C. Steve Schultz, W0CHJ 520 S Jefferson St, Junction City KS 66441

#### Northern New Jersey Chapter 77

Northern New Jersey Chapter 77 had its spring luncheon on April 11 at the Robin Hood Inn in Clifton, NJ. It was a special affair honoring Herman "Musty" Mustermann, W2TP for his 75 years in amateur radio. Musty is one of the five members who have been awarded a 75-year plaque by QCWA. The gathering then heard an audio cassette with an address by President Harry Dannals, W2HD congratulating Musty on his award.

Herman "Musty" Musterman, W2TP (right) receives his 75-Year Gold Certificate plaque from Carl Felt, N2XJ.

Musty's award brought other Chapter members to the fore with their certificates attesting their years in amateur radio. In addition to Musty, certificates of 50 years or more are held by: W2CVF, WB2HDV, W2IET, W2KHL, W2OJW, W2ND, and N2XJ.

Thirty-five members were at the affair and, as always, we all had a very enjoyable time.

Henry Dull, W2PHW One Longstreak Rd, Newfoundland NJ 07435

#### **Pelican Chapter 128**

The Pelican Chapter 128 has been off and running ever since election of new officers for 1992. We continue to meet monthly for a luncheon meeting at the Familystyle Buffet, on the third Wednesday of the month. We also meet for an informal breakfast meeting the first Wednesday of each month at the Family Place restaurant.

Our attendance at the meetings has been good, and it affords the Pelicans a chance to gather and socialize. The Pelican Nets are doing well, with numerous check-ins on the 145.29/-600, our own repeater. We are pleased to note that

the Gator Chapter also uses this machine for their Saturday morning net. The repeater is open and all QCWA members and friends are encouraged to use the equipment.

Pelican Chapter now has in the works our annual catered picnic, held in November, which generates a good turnout of members and guests. Enthusiasm is high for the upcoming National Convention, to be held at the Holiday Inn, St. Petersburg/Clearwater Airport, on October 29 and 30, 1993. Our committee has been working on plans for the past three months, and they assure everyone a great time—in a real first class hotel, at a bargain price.

J. F. Strom, K9BSL 233-34th Ave N, St. Petersburg FL 33704

#### Northwest Indiana Chapter 36

The regular Chapter meeting was held April 23, with President Bob Pepin, W9BUN presiding. Our meeting featured a good hard look at the Drake R8 owned by John Hollis, N9MRS (ex-W9KGI). We liked its performance.

Barney, W9CWO spoke on the cholesterol-lowering effects of dried orange peels. Ron, WO9P talked about the merits of ferrite loop stick antennae applications on LF and medium wave reception for noise reduction and directivity. Charlie Bunger, W9PCF spoke on the merits of hardline feed systems on VHF and UHF. Neal Barry, W9SNF talked about old time ham gear and homebrew projects using available surplus components.

A moment of silence was held for QCWA Silent Keys, including the two Silent Keys from Chapter 36—John Palis, W9CHK and Ham Robinson, W9AYH, both of whom passed away in the same week.

A new net frequency was approved: 147.495 simplex, on the fourth Wednesday of each month, 7:00 P.M. local time, with W9BUN as Net Control.

On April 30, Bob Pepin, W9BUN will retire as Chief Technician and Coordinator of Protective Relaying for the electrical power generating and distribution systems at the Inland Steel Co. Bob will have over 40 years' service. We all wish Bob a long, healthy, and happy retirement.

Ron Banaszak, WO9P 6111 W 1100 N, Demotte IN 46310

#### Lake Erie Tri-State Chapter 122

The annual luncheon meeting of the Chapter was held on February 1 at the East Eric Turners Club. Fifteen members and ten guests were treated to a fine meal. Our thanks to our outgoing Secretary, Bill Tammen, W9KEP for making the arrangements.

President Joe Seppala, KC3LV called the meeting to order and asked the nominating committee to present its slate of officers. Since there were no nominations from the floor, the Secretary was asked to cast a unanimous vote for the slate: President, Joe Seppala, KC3LV; Vice President, Gerry Owens, AB3X; Secretary/Treasurer, Hank Schultz,

WI3U; and Directors, Joe Yusz, W3KKT and Sig Stacey, W3MMJ.

There was a general discussion of types of programs, luncheon locations, and restaurants for the 1992 meetings. It is hoped that the Chapter can have more informal meetings to stimulate activity in our Chapter.

Our April 25 membership meeting was held in Meadville, PA. Twenty-two members and guests braved the rigors of rainy Erie County weather to have lunch at Hoss' Restaurant. Arrangements there were made by

our President, Joe Seppala, KC3LV.

After enjoying a fine meal, our President called a short business meeting to discuss happenings since our annual meeting in February. The meeting schedule for the balance of the year includes a September 12 luncheon and membership meeting in conjunction with the Radio Association of Erie annual hamfest and an October 24 annual luncheon and membership meeting. Locations will be announced later.

We welcome Don Morrison, W7LET as our newest Chapter member. Don is an ex-Ericite and has his roots in Erie. He was to be the speaker at our meeting, but had to return to his home in Peoria, AZ—too long a commute for him to return at this time!

Our sympathy to Clark Coho, N3DYY, and his wife in the passing of her sister earlier this year.

Apologies to Paul Gerbracht. W3QPP, for overlooking his election as Chapter Director and to Bert Van Houten, W3TPW, our President Emeritus.

Henry L. Schultz, Jr., WI3U 610 Young Rd, Apt 1, Erie PA 16509-3175

#### Southern California Chapter 7

QCWA Director Bob Rickey, NF6P (center) presents awards to two Southern California Chapter 7 members: a 50-Year QCWA Gold Certificate to Bob Richardson, W6WHM (left) and a 55-Year Gold Certificate to Ken Johnson, W6NKE (right).

Bob Rickey, NF6P

#### Niagara Frontier Chapter 65

We are saddened by the loss of our President Bert Jones, W2CUU, on March 12. Born in 1911, he obtained his amateur radio license in high school and was issued W8CUU. Bert's career took him to GE, Colonial Radio, Markel Electric, Wurlitzer, Bell Aerospace, and Sylvania. He was very active in his local church as usher and audio specialist. Bert was a kind person and helped widows sell their spouses' radio gear. We in QCWA and RAWNY will miss Bert, but we are glad we travelled with him here in the Western New York area.

Chapter 65's summer picnic was hosted by Bob, W2WVC and Pat Johnson (left) at their South Wales summer home. Looking on is President Bert Jones, W2CUU, now a Silent Key.

We welcome our newest member, Bob Crooks, W2CHB. Bob hails from Franklinville, NY and was first licensed in 1955. At Dresser-Rand in Olean, from which he retired, Bob was a machinist and in Quality Control. His amateur activities are on HF and 2 meters.

Congratulations to Ralph, W2RPO and Hank, W2IRU, who upgraded to Extra Class!

If travelling in the area, join us at our weekly luncheon on Saturdays at 12:30 p.m. at the Williamsville Inn, 5447 Main St, Williamsville, NY. You are most welcome.

Kenneth R. Palmer, K2FJ 12750 Williston Rd. E Aurora NY 14052

QCWA is constantly searching for

members with whom we have had no contact in recent years. Many are found to be Silent Keys never reported. These members later identified as Silent Keys will all be listed in the triennial *QCWA Membership Directory*.

Please send any information you have to Silent Keys, c/o Ted Heithecker, W5EJ, 1409 Cooper Dr, Irving TX 75061-5527

73, Ted Heithecker, W5EJ

#### Central Illinois Chapter 59

Newly elected President John Moss, NO9V welcomed 38 members and guests to the annual spring meeting held on the evening of April 4 at The Elms in El Paso, IL. First item on the agenda was a short prayer, followed by the introduction of those attending the meeting. Preceding the business portion of the meeting, members and guests enjoyed an excellent meal provided by the staff of The Elms, which is known for its fine food.

Following dinner, a short business meeting was conducted. Reports were made and a discussion on the formation of a Chapter net was held, but there was no action due to lack of interest in a net.

Entertainment for the evening was provided by Roxanne Moss, NO9W, who, with her husband, NO9V, recently completed a trip to Honduras in Central America. The group very much enjoyed her presentation of slides and narration.

The next Chapter 59 meeting will be held at the same place—The Elms in El Paso, IL—on October 24, 1992.

John M. Vasicak, W9ZEN 124 N Glen Ave, Oglesby IL 61348 QCWA Century CLub award were presented to Chuck Bailey, W7YU, and it was announced that Ruby Larue, W7JZA and Rulon "Bid" Biddulph, AC7E had recently received their Century Club certificates.

Howard Myers, W7ILW, 1992 QCWA Convention chairman, reported on the committee's progress. A good response has been received from information in the Spring issue of the *Journal*, and more is to come in the summer issue. Finally, an ARRL 50 year member plaque and pin were presented to Al McMullen, K4IGI. He and his XYL Marilyn returned from Florida last week.

Gerry then introduced our speaker, Bob Nelson, W9EGX, who told of this experience in the Chicago area working for Zenith, Hallicrafters, Magnavox, Cook Electronics, and others in the teaching, electrical, plumbing, and electronic engineering fields.

Our next meeting will be held at the Fort Tuthill Hamfest, Flagstaff, AZ in July. The Prescott area group gets together the second Tuesday of each month at Nancy's place for lunch at noon.

Cliff Bruce, W7ER 8720 E Jackrabbit Rd, Scottsdale AZ 85250

#### **Golden Triangle Chapter 173**

On April 8 our Chapter had its annual Spring banquet at the Greenhouse Restaurant in Mt Dora, FL. John Nobles, T.M.A., of the Ocala National Forest, gave an interesting slide presentation on the Red Cockaded Woodpecker, which is on the endangered species list.

Our 55-year QCWA member, Bill Golding, K4GGF celebrated his 90th birthday on March 18, and is still going strong.

We will continue our monthly breakfast meetings during the summer, even though some of our members go North until September or later. Meetings are held the second Saturday of the month at the Emporium Restaurant in Tayares, FL, at 9:00 A.M.

Our Chapter assisted the Multiple Sclerosis Bike-athon, providing radio communication between the check points on the route.

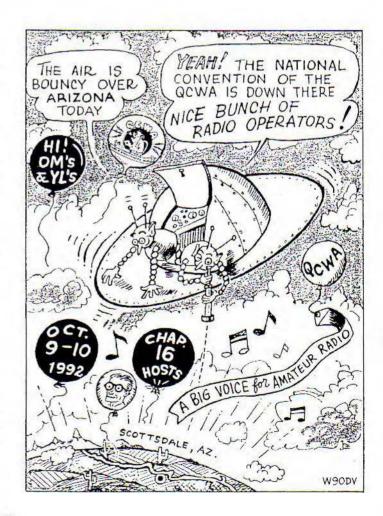

We have a Tuesday night 2 meter net at 7:30 p.m. on 147.255 MHz, up 600. Everyone is welcome to join us.

Ruth C. Cutcher, KK4DL 1600 Blackberry Ct, Eustis FL 32726

#### Barry M. Goldwater, Arizona Chapter 16

Fifty-one members and guests enjoyed lunch at Nancy's Par for the Course Restaurant, Prescott Country Club, at noon on April 25. President Gerry Higgins, W9INP held a short business meeting. A nominating committee was appointed to present a slate of nominees for the July election.

A 60-year QCWA Anniversary Certificate and a

## Abbreviated Minutes: April 3–4, 1992 **QCWA Board Meeting in Eugene, Oregon**

he meeting was called to order by President Harry Dannals. All officers and directors were present. Also present were General Manager Jim Walsh, President Emeritus Leland Smith and Jack Troster, the latter an invited guest observer and candidate for this year's director election. The Board observed a moment of silence for those who became Silent Keys since the last meeting. A special note was made of the passing of QCWA Vice President Hugh Winter.

#### **President's Report**

The president presented his oral report which supplemented his monthly written reports to the Board. Highlights covered mention of the upcoming OCWA National Convention in Scottsdale, Arizona, including comments about a visit there last year to meet with convention planners and check the facilities for the Fall Board meeting to be held at that time. He also covered recent attendance at the Miami Hamboree, plans for Dayton, Rochester (NY) and the ARRL National at Los Angeles.

Other items covered were the WARC '92 results, the OCWA Journal, and the recent move to Eugene by the QCWA. The latter point was amplified by comments that the move was very successfully carried out by General Manager Walsh and his staff. An outstanding job was done with no disruption of QCWA services during this transfer of facilities and the pickup by the new staff. Retiring General Manager Ted Heithecker was thanked for his cooperation during this critical period.

#### **Financial Report**

The Financial Report was presented by Treasurer Randles. He advised that

in CDs which will be maturing in October of this year. The Finance Committee is looking into other avenues of investment of this fund upon

the Scholarship funds are still invested

OCWA Officers and Directors attending the April Board Meeting in Eugene, Oregon were (seated, left to right) John Swafford, W4HU; Milt Chaffee, WIEFW; Bill Stevens, W6ZM; and Bob Rickey, NF6P: (standing, I-r) El Charlton, W5MD; John Edel, K9LBZ; Walt Brink, W3WPY; Jack Kelleher, W4ZC; Art Miligan W8KW; President Emeritus Leland Smith. W5KL; President Harry Dannals, W2HD; Wes Randels, W4COW; Lew McCoy, W11CP; and John Weber, KA2IXW.

CD maturity in order to obtain the best interest rates available. The Treasurer reaffirmed that the QCWA's financial situation is good; however, interest rates still remain low and prudence must be exercised in our financial planning.

Secretary Swafford reported that all

correspondence had been answered and he provided a rundown on his major activity for the period. Charter approval was confirmed for the following new Chapters: Foothills of the Ozarks, Chapter 180; and Hudson Valley, Chapter 181.

General Manager Jim Walsh. W7LVN reported on the progress and activities at the new Eugene, Oregon headquarters, where he and his staff are current on all OCWA operations.

Vice President McCov, as Chairman of the Administration & Finance Committee, presented the report of that committee. He confirmed that the HQ move to Eugene went well and was accomplished within budget.

#### Investments

He stated that a review had been made of our investment picture and that consideration is being given to changing our investment portfolio from CDs to Mutual Funds in order to obtain an improved return.

He reminded the Board that our Scholarship Awards could be jeopardized unless we maintain a fairly high rate of interest on those funds. In this connection, a motion was made and approved to permit the Treasurer, with the consent of the Administration & Finance Committee, to reinvest funds

to obtain the highest rate of return consistent with sound investment policy.

Recognizing the pressure of the times and the recent transition in QCWA management, the Administration & Finance Committee proposed that our Contingency Plan be updated.

Responsibility for this Plan has been assigned to the Plans & Programs Committee with assistance from Administration & Finance. Initial proposals will be presented in October.

#### Membership

As Chairman for the Membership Services & Activities Committee, Director Charlton presented its report. The report included a review of liaison activities via correspondence with members and chapters. Priority treatment has been given to attempts to reactivate chapters and establish new chapters.

Convention Chairman Randles reported on the excellent Canton Convention and updated the Board on the

Scottsdale preparations.

He reported that progress on the planning for the '93 St. Petersburg Convention was moving along extremely well with fifty percent of the program already set. El Paso, Texas, has been approved as the site of the 1994 Convention.

The Operating Activity report from Chairman Norm Dias was presented by Treasurer Randles. Early reports indicate that the CW QSO Party was very successful. However, the conflict between the ARRL DX Contest and the Phone QSO Party was a problem. Resolution of this problem will be discussed further.

The Audio Cassette report from Chairperson Blanche Randles was presented by Treasurer Randles. The program continues to be well received and appreciated. The Board approval to include potential members in the list to receive the *Journal* via tape is underway and should prove successful. Blanche urged continued support for the program which is at no charge to recipients.

#### "Elmering"

Director Kelleher as Chairman of the Plans & Programs Committee presented its report. The assignment to review the status of the area representation question was completed without formal action except to prepare a standard reply for future inquiries.

"Elmering" was another assignment taken on by the committee. Member-at-Large Larry Shima, W0PAN, has prepared an excellent article on the subject for the *Journal*.

The Board concurred with the concept of "Elmering" as an excellent Chapter activity, as well as an individual effort by QCWA members.

Director Brink as Chairman of the Membership Committee presented its report. He urged that Board Members make every effort to be present at the larger Hamfests and Conventions in their areas so that QCWA can have onsite representation. New member recruitment is often much easier when personal contact is made.

Director Rickey as Chairman for the Publicity and Awards Committee made its report. He particularly cited the work of Ethel Smith in *Worldradio* as an excellent avenue for QCWA publicity.

#### Awards

After nomination by the committee, the Board approved the following awards: Distinguished Service: Ted Heithecker, W5EJ; Stuart Meyer, W2GHK; and Art Monsees, W4BK. Presidential Award: Richard C. Kirby, W0LCT. Commendation: Ethel Smith, K4LMB

Nominations for QCWA awards are requested from members.

Director Chaffee reported for the Constitution & Bylaws Committee. He advised the Board that he would be reviewing the Bylaws for necessary changes and removal of any ambiguities which might exist.

Bylaw changes will also be made in accordance with Board motions and approvals.

#### **Scholarships**

President Emeritus Smith, as Chairman for the Scholarship Committee, reported on the success of the program. He stated that the QCWA scholarships would again total nine at the \$800.00 amount each.

The Foundation for Amateur Radio (FAR) administers this program at no cost for many organizations

including OCWA.

Chairman Smith reported that he has prepared a letter to all Chapters encouraging them to publicize the availability of these awards so that more eligible Radio Amateurs will be aware of these opportunities through QCWA. He further stated that the Fund now totalled almost \$100,000. The fund is still growing and is perpetual since only the interest is awarded each year.

President Dannals reported on the Museum project in Omaha. Some confusion has developed and he hopes that the recent article in the *Journal* will set the record straight.

In order to handle the entire matter more efficiently, he appointed a special committee to handle Museum liaison and planning. Members of this committee are: Directors Brink (Chairman), Miligan, Rickey and Weber, and Leo Meyerson (At-Large). Chairman Brink plans a trip to Omaha in May and will observe progress first hand.

The Board adjourned with high expectations for a very successful meeting in October at the site of the 1992 QCWA National Convention. All members are reminded that this is the occasion of the QCWA Open Forum where members can hear progress of the Board and add their

views to the activities.

John Swafford, W4HU QCWA Secretary

## Get Involved!

## How to Start an Elmer Program

Are your QCWA chapter meetings fun and interesting?
Is your meeting attendance on a downward trend?

Do your meetings too often become "the way it used to be" sessions?

If you answer these questions NO, YES, and YES, then you might consider implementing an Elmer Program in your local QCWA Chapter meeting plans. Larry J. Shima, WOPAN tells you how . . .

As we start to count our Ham Radio experience in decades rather than years, many of us have given some thought to those who might be attracted to the hobby but haven't taken that first step to give it a try.

The advent of a new "Codeless Technician Class" license opens a whole new market of top-quality prospects for the hobby we have all enjoyed for years. Many of these prospects are just waiting to be invited to a meeting to learn more about Ham Radio.

After spending most of my adult life (I'm 54 years old) involved in National and Local Amateur Radio organizational activities, I have drawn an inescapable conclusion:

Local amateur radio activity generates interest and interest generates activity.

The other major observation is that the most effective way to attract newcomers to Ham Radio is through oneto-one personal contact.

When you put these two observations together, an idea comes to mind for increasing interest in local QCWA Chapter meetings: Start an Elmering Program!

The goals of an Elmering Program are pretty simple:

- Chapter members are encouraged to actively seek out friends, work associates, neighbors, and relatives as prospects for exposure to Ham Radio through an organized introduction at a QCWA Chapter meeting.
- These new prospects are then taken through the complete process until they are actually on the air with a new Ham Radio operator's ticket; all with lots of one-to-one personal help.

Sounds good; but, how do we begin the process?

#### Find five club go-getters

Probably the most difficult thing to do with any major project is to get the ball rolling. The Elmer Program is no exception to that problem. The president of the chapter is in the best position to know the best "volunteers" to get a project started and brought to a successful conclusion.

To begin the process, the president could establish an Elmer Program committee composed of, say, 5 members with the committee chairperson selected as the chapter member who is best known for getting things done. The five-member committee is suggested as they would become "minichairpersons" for each phase of this general plan of action:

- Demonstrate ham radio at an introductory meeting
- "What is involved"—in detail—at your second meeting
  - Classes begin
- Volunteer Examiners conduct tests
- "On the Air" starts when the brand-new license arrives.

Each member of the committee would be responsible for a particular phase of the Elmer Program. In selecting committee members, the president should very carefully go over the program with each of the prospective committee members and be sure that the committee member is prepared to take on that specific part of the total plan.

#### Phase 1: Initial meeting

Plans for the first meeting of the Elmer Program should begin about two months before the target date for the meeting. The suggested format for the first meeting:

- 1. Ten minute welcome by the meeting moderator with comment on the broad diversity of Ham Radio and an introduction to the ARRL video, New World of Amateur Radio
- 2. Presentation of the ARRL video (28 minutes)
- 15 minute Question and Answer on the Video
- 4. 15 minute coffee break and socializing with invited guests.
- 5. 10 minute demonstration of 2 meter FM local usage
- **6.** 10 minute demonstration of OSCAR Communications
- 7. 10 minute demonstration of weather spotters activity
- 8. 15 minute wrapup by meeting moderator and an invitation to the next meeting to learn more about what is required to get licensed and an explanation of each license class privileges.

The first meeting is intended to be a non-technical, interest generating look at what Ham Radio is all about. Live, hands-on displays should be used and actual on the air activity demonstrated. Remember: keep it simple!

#### Phase 2: Nuts and bolts

The second meeting gets down to the nuts and bolts of what is involved in getting into Ham Radio. Each portion of this second meeting can be split up among chapter members so that all can get involved with the project.

A very important part of the preliminary work for this meeting is a

personal phone call follow-up with each of the first meeting attendees. You want to show them that you are interested in their joining Ham Radio enthusiasts who have enjoyed the hobby for a long time.

This follow-up call can also be used to answer questions the prospect may have. Keep it friendly and non-technical; and remember—your objective is to get them to attend the second meeting!

The suggested format for the second meeting is as follows:

- 1. Welcome by meeting moderator and a 15 minute presentation on the license structure.
- **2.** 15 minutes on the requirements to qualify for a Codeless Technician class license.
- **3.** 15 minutes on how classes will be conducted. Give everyone a copy of the actual class schedule.
- 4. 15 minutes of anecdotal testimony from chapter members about some special event that occurred in their Ham Radio experience along the lines of talking to a celebrity, Field Day, etc.
- 5. 15 minute coffee break for socializing and some 2 meter on-the-air demonstrations—mobile to base, mobile to mobile, etc.
- **6.** 15 –25 minutes of Question and Answer time
- 7. Conclude the meeting with a personal invitation to each prospect to start classes and join the fun of Ham Radio.

#### Phase 3: Classes start

This phase is where the rubber meets the road with new Ham Radio prospects. A review of "Motivating Newcomers," by Mike Filipiak, KO9Q, page 56, August 1991 QST will give you an excellent idea of how to get the classes rolling and the newcomers enthused.

Classes for newcomers have become a lot easier to conduct because of "Training Packages" available from the American Radio Relay League, W5YI Publishing Group, and others.

For example, Fred Maia, W5YI (QCWA Member) has made available

a special training package discount to QCWA Chapters for training materials needed to get the newcomer to the

Local amateur radio activity generates interest . . . and interest generates activity.

point of testing. Contact Fred at (817) 461-6443 for information on the packages available and Special QCWA pricing.

Contact Rosalie White at ARRL Headquarters, (203) 666-1541 for information about League publications dealing with attracting newcomers and providing classroom education.

Keep in mind that the objective of license classes is:

To prepare the student with sufficient information, knowledge, and expertise to pass the examination for the license class desired.

In other words, we are not trying to teach the student so thoroughly that they will become electronics engineers; more importantly, we want them to get started in Ham Radio *first* . . . expertise will come later.

This may sound like "heresy" to some; but it is the way things are today, and we must recognize and accept that fact.

#### Phase 4: Testing

All of the chapter efforts during the first phases of the Elmer Program have been focused on getting the newcomer to the testing phase. By now, the chapter should have sufficient accredited Volunteer Examiners to begin the testing phase.

W5YI VEC accredited Volunteer Examiners and ARRL VEC accredited examiners have the necessary materials to conduct the exams.

This phase is probably the easiest of the whole process as it fits in with what the "VEs" have already been doing. The important thing is to schedule the exams as a chapter event with special

attention paid to the examinees after testing to get them all "pumped up" for the final phase of the Elmer Program —the Ham Radio Ticket arrives!

For those who didn't pass the test, an Elmer should be assigned to help them

with special tutoring in order to pass the examination the next time they take it. Some will need this help so don't forget to provide it.

#### Phase 5: On the air!

We can all remember our first "On the Air" experience and what a thrill it was to hear someone come back to our own call letters! It is scary at first; but, with the Elmer right there it makes the experience a whole lot easier.

In this phase, a chapter member is assigned to each of the successful exam takers and assistance is provided in getting equipment, antenna, shack set up, or what ever it takes to get the newcomer off on the right foot. This is the time when attention is paid to onthe-air technique, courtesy, net check-in, etc.

The newcomer's exposure at this point will make it a fun hobby not just a "flash in the pan" situation.

This article provides food for thought on ways to create member interest at the Chapter level and—at the same time— enhance the quality of those joining our hobby.

A well-organized Elmer Program will make a significant contribution to the future of Ham Radio.

Remember . . . an Elmer probably influenced us early in our exposure to Ham Radio and opened up an amazing hobby to each of us. Do your part by passing on that experience to someone you know.

Larry J. Shima, W0PAN

#### WIRU TO SPEAK AT CONVENTION

Richard L. Baldwin was first licensed in 1934 as W1KE and received the call sign W1RU in the 1960's. Primarily a DXer, he still finds time for an occasional contest. Dick's 100' tower with a four element tribander is located in Bremen, Maine, a small fishing village on the coast. His military career started in 1937 in the Naval Communications Reserve as a radio operator. He was called to active duty in July 1941, commissioned as an officer in 1942 and retired as a Commander, USNR.

Dick spent many years with the ARRL; 1948 - 1952 and 1956 - 1982 as Assistant Secretary, Managing Editor of QST and Assistant General Manager. During the period 1975 - 1982 he was General Manager of ARRL. From 1952 - to 1956 he worked as a Radio Communication Engineer for Motorola.

In 1964 Dick began extensive overseas traveling for ARRL/IARU, the beginning of preparatory work for WARC '79, visiting nearly 100 countries to date. From 1976 to 1982 he was Secretary of the International Amateur Radio Union (IARU) and from 1982 to present he has been IARU President. During the past 27 years he has attended 15 WARC conferences at the International Telecommunications Union (ITU), plus many other ITU meetings largely for the purpose of establishing the presence of IARU. He was a member of the four-man team U. S. Interdepartment Radio Advisory Committee which originally conceived the possibility of and the rational for new amateur bands at 10, 18, and 24 MHZ.

Aside from the customary administrative duties of IARU, his prime activity during the past five years has been with a course in Amateur Radio Administration which he planned and wrote. This one-week course, co-sponsored by the International Telecommunications Union, was presented to delegates from developing countries 18 times through 1991. The course appears to have been particularly effective not only in aiding developing countries with their amateur radio regulatory efforts, but also in convincing them of the value of the amateur service.

In 1989 Dick received from the IARU Region I the Roy Stevens Memorial Trophy for his work as IARU President. In 1991 he was elected to the

Richard Baldwin

QCWA Hall of Fame "for outstanding contributions to the future of amateur radio as President of IARU." In 1992 he was named "Amateur of the Year" at the Dayton Hamvention.

Besides being active in amateur organizations, Dick is an avid sailor. He and his wife Phyllis enjoy sailing along the Maine coast in their 35 foot wooden ketch.

#### ADDITIONAL CONVENTION INFORMATION

- 1. For 2 Meter communication use 146.94 , or 146.76 .
- 2. Please get your registration forms in early so that your convention committee doesn't have to burn the midnight oil on October 8!!
- For info on tours, sight seeing, etc., see Spring Journal page 23.

## Results: 1992 **QCWA QSO** Parties

The 1992 QCWA QSO Parties are by now a pleasant (I hope) memory to most of the participants. By the notes and letters received along with the many logs, everyone was quite satisfied with the results.

The only complaint was with the scheduling of the phone QSO party, which was held on the same weekend as the ARRL DX contest.

In regards to that, let me say that QCWA has been holding our QSO Parties on the same weekends since they were first held! I sent the copy to all the Amateur Radio publications in September, 1991. Also, changing our dates would only serve to be more confusing as there is a contest of some kind almost every weekend.

I could say the old adage that "we were there first," but as we all know, the Amateur frequencies are the property of no one person or group. So I believe we must all, as senior members of the hobby of Amateur Radio, be tolerant and take the bad with the

good.

You will notice that the number of participants in the phone party was down quite a bit, and the QRM from the contest was part of the reason. Proving again that CW is alive and well, there were 170 participants in the CW portion, and 112 in the Phone portion.

Some Chapters were very active during the QSO Parties and I will not name them all, but I do want to commend German Chapter 106 for being very active. Year after year—under sometimes very adverse conditions —they, as a group, make a very good showing, advancing the practice of good fellowship among QCWA members and Amateur Radio operators on the airwaves.

I am now in the process of getting the plaques and certificates ready to send out to the winners. I also have some certificates to send to members who qualify for Worked 500 Members and Worked 100 Members awards. Congratulations to them all. and to all who participated.

Last, but by no means least, I wish to thank Connecticut's Nutmeg Chapter 149 . . . especially Harold Chase, W1EES, who now knows what it is to be deluged with mail from 250 or so hams, and his good lady Gladys, W1VPF, for all their help with checking, etc.

Note: If your name doesn't appear in the following lists, yet you sent in a log, it's because your log did not arrive in the mail in time for the April 10th deadline. Sorry, but rules are rules.

> 73. Norm Dias. WIUHY Activities Manager, OCWA

#### Awards will go to the following members:

CW QSO Party

W4WKQ, John Zwaska: Plaque, 1st place K9CLO, W H Branche: Certificate, 2nd place W3TDF, Ray Bilger: Certificate, 3rd place K3CP, W P Van Horn: Certificate, 4th place DL6NB, Hans-Werner Liebig: Certificate, 1st place, Europe

VE3QU, Mel Riddell: Certificate, 1st place, North America

Phone QSO Party

K9CLO, W H Branche: Plague, 1st place W3TDF, Ray Bilger: Certificate, 2nd place W8KW, Art Miligan: Certificate, 3rd place DL6NB, Hans-Werner Liebig: Certificate, 4th W4HVU, Guy Blencoe: Certificate, 5th place

DL6NB, Hans-Werner Liebig: Certificate, 1st place, Europe

VE3FRR, E W Vanattan: Certificate, 1st place, North America

#### CQ from Arkhangelsk de Serge, UA10SM

A Russian QCWA member (#24,649) and electrical engineer, Serge Matveyev offers to answer questions about "everything in Russia: prices, politics, ham rumours, technical questions..."

He has letters from Vic Shevljagin, UA3BH, once a KGB officer, to swap. "Vic tried to teach me to be good commie and same time good ham (things which cannot coincide)," he says. Serge's XYL is Lyuba, UA1OSA, and they operate CW only.

Write Serge c/o Gregor Ulsamer, DL1BFE, Logumer St. 66, DW 2970, Emden, Germany. Please—no mail, and no cash, to Russia.

#### **QCWA Honors**

	QCWA Hall of Fame
1980	Ray Meyers, W6MLZ
1981	Bill Halligan, W9AC
1982	Barry Goldwater, K7UGA
1983	Jean-B. Wolff, LX1JW
1984	Don Wallace, W6AM
1986	George Sterling, W1AE
1987	Victor Clark, W4KFC
1991	Richard Baldwin, WIRU
	Distinguished Service Award
1975	A. L. Walsh, W2BW

### On the Satellite

Amateur Radio
Satellite builders are embarking on their most ambitious project thus far—Phase 3D.
This new satellite is now starting to emerge from the drawing boards and "chips" are flying as metal is cut for the initial structure of the main space frame and the payload support cone in the center of the satellite.

Most of this initial hardware work is being done by students at Weber State University, Ogden, Utah, under the direction of Dick Jansson, WD4FAB, of Orlando, Florida. As you can see from this introduction, the work is already spread out. And—as you will discover in subsequent paragraphs—these efforts are only the "Tip of the Iceberg . . ."

#### **Introducing Phase 3D**

Phase 3D is a natural extension of the successful Phase III program that has given the Hams of the world AMSAT OSCAR 10 and AMSAT OSCAR 13. The concepts for this satellite have been formulated through a series of international meetings held over the past three years.

These meetings have been held at the University of Marburg, Germany. Dr. Karl Meinzer, DJ4ZC, has chaired these international meetings and a very challenging program has evolved. The next meeting will be conducted in May of 1992. Representatives of at least ten countries will attend and be a part of this project. A subset of these designers met in Orlando, FL, last Fall to kick off the mechanical construction mentioned above.

A full scale mock-up of this new satellite was shown at the AMSAT-NA annual meeting last Fall in Los Angeles. Most recently, a 1/5 scale model of this Bird was shown in the AMSAT-NA booth at the Dayton Hamvention. If you haven't seen one of these mock-ups, look for one at Hamfests throughout the year. Visualize in your mind how large this new "bird" will be, and what capabilities it will have.

#### **Dramatic improvements**

Two major concepts have guided the design thus far:

■ Improve the link margins by at least 10 to 15 db to relieve the financial and technical load on the

satellite user, and

■ Spread out to even more of the VHF, UHF, and Microwave spectrum to promote more use of these bands so that we may retain their allocation to the Amateur Radio Service. A unique architecture is being developed to tie all of the transmitters and receivers together on a common IF Bus making possible a host of satellite modes from 10 meters to 10 GHz.

To achieve the first objective improved link margins—the satellite must be larger so that it has additional surface area for solar cells and for antennas. The current design accommodates all of these objectives.

This project has already been manifested on the second Ariane 5 launch, currently scheduled for late 1995. The possibility of a slight delay due to rework of some Rocket Engine components currently exists. This may sound like a long time into the future, but the magnitude of the design, construction, and test efforts required to meet the late 1995 date is staggering, especially for a group of volunteers working with donated funds.

#### What this means to QCWA

What does all of this mean to QCWA members? First, we are on the verge of a revolution in the ease with which the average Ham can "Work the World" through Amateur Radio Satellites.

Second, this will not happen without the support of Hams throughout the world.

Third, AMSAT organizations throughout the world are in need of financial help to fund this most ambitious project. This financial help could come from direct donations or, more importantly, from fund raising ideas contributed by QCWA members. AMSAT-NA has pledged \$1.5 million over the next five years for their part of the project. Other branches of AMSAT have pledged as much or more over the life of the project.

## On the Satellite

#### Five ways you can help now

- 1. Become involved in the Amateur Radio Satellite program and experience first hand what it is like to work the "Easy Birds," OSCAR 13, the PACSATS, MIR, and all of the other Amateur Radio Satellites.
- **2.** Dig deep in your pockets and provide as much financial support as you can afford to the effort.
- **3.** Think of creative ways to raise funds and other support for the Phase 3D project. Communicate these ideas to AMSAT.
- **4.** Contact your local AMSAT Area Coordinator and have him give your chapter a talk on satellites and in particular the Phase 3D project.
- 5. Check into the AMSAT nets on HF, VHF, and on OSCAR 13 to follow the developments on at least a weekly basis. AMSAT News Service bulletins are also available on many packet and dial up bulletin boards. Contact AMSAT for a current list of nets and bulletin boards. Telephone 301-589-6062.

#### This is our future . . .

The future of Amateur Radio depends upon expanding our technology, occupying our major resource—RF Spectrum, and providing public service. The Amateur Radio Satellite program addresses all of these points and the Phase 3D project in particular drives them home like no other known project can. Please dig deep and support Phase 3D any way you can.

73, Keith D. Pugh, W5IU AMSAT VP of Operations

## From the Desk of Barry Goldwater, K7UGA

Dear Fellow QCWA Member:

It's hard to believe that it's been over 30 years since the first OSCAR— Orbiting Satellite Carrying Amateur Radio—was launched in December, 1961; Amateur Radio has been in space longer than some of our QCWA members have been licensed!

Since that first simple box was launched, the Amateur Radio space program has continued to grow in capability, performance, and—of course—cost. Under the leadership of AMSAT and its overseas counterparts, today's Amateur satellites are the product of a tremendous combined international investment in Amateur skill, ingenuity, time, just plain hard work, and—of course—money. And now our Amateur space enthusiasts are undertaking their most ambitious project by far, the Phase 3D Satellite.

This extremely sophisticated bird has been promised a ride on a French Ariene rocket launch in 1995. AMSAT engineering teams from a dozen different countries are already hard at work to insure this ultracomplex spacecraft will be built, tested and ready to go in plenty of time. WhenPhase 3D arrives in space, however, we'll have a staggering \$4 million dollars invested in it!

Of this, \$1.5 million must be raised by AMSAT and the remainder by our overseas counterparts. AMSAT members have responded enthusiastically with both cash and pledges, as have many in the Amateur Radio industry. The ARRL is taking an active role, and campaigns to solicit US industry and other possible funding sources are beginning to heat up. That's where you come in.

#### But what, you may ask, will I get from supporting Phase IIID?

First, whether or not you're interested in getting on Phase3D yourself, you'll have the knowledge that you're helping to insure Amateur Radio's future: one of Phase 3D's key roles will be for education . . . exposing young minds to the kinds of challenges and excitement found in Amateur Radio. As a result you'll also be investing in our country's future, as the resulting new Amateurs provide the talented engineers and technicians desperately needed to insure our nation's place in an increasingly complex world.

And finally, you'll know that you're part of an elite team who've put together a state-of-the-art satellite equal to the best efforts of the finest commercial and government space organizations in the world!

Join with me today by becoming a contributor to Phase 3D—and put back into Amateur Radio a bit of what it's given to you! Send your contribution to AMSAT, Box 27, Washington, DC 20044 today.

Barry Goldwater, K7UGA

## "The Way We Were"

## Flying "Sparks" Part II

As we left Curt Chezem, WN7K in last issue's Part I, he had arrived in Nome, Alaska to be Chief Operator of radio and weather station KINA.

"The Alaskan draft boards began to howl at Pan American so the Navy inducted every one of us and slapped us back on the job as Naval Air Transport Service," Curt wrote. "But we were still flying the Pan American 'flag'...

Wo lessons of life were learned in Nome. First, I watched the ticket agent get the bigger paycheck with no background at all (communicators, though absolutely essential, are overhead). Second, the influx of new technology would spell doom to both the landline and radio telegraphers.

Pan American dismantled its ground radio network and flight telegraphers switched to Signal Corps and Navy telegraph stations. I was returned to Seattle to study for duty as Flight Radio Officer.

study for duty as Flight Radio Officer.

The first thing was to pass a new company code test: 25 wpm, five letter code groups, five minutes solid, using hand key and straight stick (pencil). The big problem was printing block letters that fast. That accomplished, then came more meteorology, aeronautical dead reckoning and celestial navigation.

#### Always on instruments

In the Alaska Division, we flew the venerable DC-3s mainly via a coastal route or over Canada to Fairbanks or out the Aleutians to Adak. The radio operator sat but a few inches from the tip of the starboard prop blade. It was particularly interesting to copy CW over the hammering of ice kicked off the props by the alcohol deicers, not to mention the fumes of the tanks of alcohol used to feed the deicers! We rarely got above 10,000 feet or so. Consequently, we were on instruments all the time. I saw the ocean and islands only once during my initial checkout flight. It was unusual; I never saw them again except during landing or take off.

The radio operator was also a navigator and used the loop antenna to cross check navigation. The static buildup on the loop made sighting difficult while in the

clouds. We simply developed an ear for it.

A trailing antenna was coiled beneath the radio operator. We tuned the antenna by reeling out with low power, key down. You simply reeled out until maximum power was fed the antenna. We got excellent transmission. The worst surprise with a trailing antenna is when it is hit by lightning. A ball of fire and smoke under one's chair is a discombooberation.

Failure to reel in the antenna (QBE) could be disastrous. The iron ball would strike the ground during landing approach and could bounce back to wrap wire around the tail surfaces denying aircraft control at a most critical point.

We were Navy. We wore Pan American uniforms but all our aircraft were now Navy. It appeared that Pan Am was shedding all its old aircraft. The war pressure was off the Aleutians and Pan American shut down its Naval Air Transport system in Aleska

Transport system in Alaska.

Most of the flight personnel were transferred to Treasure Island in San Francisco bay. We would be out of the DC-3s into the flying boats, those magnificent Pan American Clipper Ships, on the Hawaii and Australia runs.

#### The Clipper Ships

I checked the radios before leaving Treasure Island in San Francisco bay. We taxied in the water south towards the San Mateo bridge. I made another radio check and signalled "go" to the flight engineer.

The skipper pushed all four throttles forward. The Boeing 314 mushed northbound into the waves. The choppy water slapping at the hull added its cacophony to the chaos of sound over the throb of the engines. The heavy craft moved slowly at first, then as her speed increased the water pounded louder at the hull. Half bird, half fish, the ship shuddered and trembled in the mounting spray.

The sound abruptly changed as she lifted onto her step and the luxurious Clipper became a hydroplane skimming on the wave tops. The roar of the engines was lost in the crescendo of the water grasping at her sleek underbelly.

The metamorphosis was dramatic. Free of her restraints, the great craft was what she was meant to be—a sleek, proud bird, homesick for her natural environment—the sky

The crew relaxed into routine work as the captain climbed us above the Oakland Bay bridge. A sweeping left turn over Alcatraz showed us off to San Francisco below us to the port. As a final magnificent gesture we cleared the Golden Gate, the Farallons, then west southwest over the Pacific into the setting sun.

As Radio Officer, I tuned the transceiver and telegraphed a QAD to the Pan American Airways company station.

It was a 20 hour flight to Honolulu. The radio officers (two on board) saw to the radio navigation with the loop antenna cross checking with the navigator and his octant readings through the overhead bubble. We busied ourselves sending estimated position and flight weather reports, latitude and longitude to the company station as well as any routine messages from the Captain or high ranking passengers.

Throughout the long night we listened to the hollow

## "The Way We Were"

sound of company dx from Honolulu, San Francisco or Los Angeles. Sometimes we tuned to the Alaska Division for a quick hello to old friends (officially frowned upon as hamming, which it was).

The flight deck was sealed off from the passengers during flight. Two full crews were on board. At any one time a pilot, co-pilot, flight engineer, navigator and radio officer made up the active crew. There were no female flight attendants on board, only stewards—and they were confined to the lower three decks.

We rarely flew above 10,000 feet and took whatever punishment the storms dished out. It was not rare to fly at the wave tops which could wear out the pilot quickly, but there were four on board. We could be out of radio contact for hours at low altitude. We would signal PAA radio before such descent and again upon climbing out.

Our overseas paths followed the Trade Winds and were by no means straight lines or Great Circle between

points . . . hence the term "Clipper Ships."

After an overnight in the Moana Hotel in Honolulu we would split up and take a PB2Y or PBM south towards Australia . . . past Palmyra Island to Canton Island the next day. After overnight on Canton, we would pick up the next southbound ship and fly on to Funafuti, the Fijis or Noumea and on into Brisbane. Army or Navy telegraphers were stationed at each stop or checkpoint. Aerofares or low frequency beacons were rare for navigation.

We would pick up another aircraft in Australia and retrace our flight. We would change out of khaki in Honolulu to Navy blue and gold braid for a Clipper

back to San Francisco.

Yes, here was the real romance of a radio career. Beautiful South Sea islands, sleepy lagoons, lush island jungles, new sights and new sounds. Except for bringing casualties back from the South Pacific fighting, it was hard to believe there was a war. But it was very real.

It was becoming even more clear that the days of the telegrapher were over. In accordance with our agreement with the Navy, I was allowed enough time after leaving Pan Am to make a trip as Chief Radio Officer on a Merchant Ship into the Pacific War Zone, Guam and back.

I spent the rest of the war as a land line telegrapher with Naval Teletype Service at Great Lakes, Illinois. Then it was back home to Eugene and a job as telegrapher with Western Union which faded into my becoming the first country western disk jockey at KUGN. Then came degrees in Math and Physics at the University of Oregon and a Doctorate at OSC. Oh, the ham call finally came through, W7JSF.

Sadly, the railroad telegrapher was gone. We were as obsolete as the flying boats . . . but we remember. Yes,

we do remember . . .

73 CZ 30.

Curt Chezem, Ph.D., WN7K 3378 Wisteria St, Eugene OR 97404

## Your Purchase of QCWA Sweatshirts and T-Shirts Helps Support the Building Fund

New QCWA sweatshirts are top quality, beautifully made, machine washable and dryer-safe. Sweatshirts are available in white, with a bright blue QCWA logo, in sizes Medium to XXLarge.

T-Shirts are of identical quality, available in the same range of sizes, and come in your choice of two color schemes:

white with blue logo or blue with gold logo.

Prices for the sweatshirts are \$15.00 for sizes Medium, Large, or XLarge, and \$18.00 for XXLarge, T-Shirts are \$10.00 for Medium and Large, \$11.00 for XL and XXLarge.

Complete the coupon below, and send your check—including \$3.00 shipping and handling for each 1 or 2 items—to QCWA Headquarters, 159 E 16th Ave, Eugene OR 97401-4017.

Art Miligan, W8KW

## "The Way We Were"

## Shortwave Broadcast Reception An Urgent Need in WWII

There I was . . . a 19-year-old draftee on my way to the Western Pacific theatre of war. I had learned radio and wire communications "the Army way" and was in the communications section of the 233rd Engineer Combat Battalion. We were stationed for three months on Oahu in the Hawaiian Islands.

While there, the troops received jungle combat training and several of us practiced radio communications with Navy battleships. The joint Army–Navy communications were later used for naval firepower support of beachhead landings as well as fighting inland. (Early Pacific campaigns were without aircraft support.)

The combat engineers landed in the early phases of a beach assault to manage supplies and vehicles put ashore from Navy landing craft. As the fighting moved to the interior, engineers built roads for tanks and trucks, moved supplies and ammunition, and established water purification points.

While at Kahuku, Oahu, I discovered that none of the GI (government issue) radio receivers provided to our battalion could tune SW broadcast stations, so I built one small enough (4" x 4" x 5") to fit into my barracks bag. By salvaging parts out of old radios, I had built radios of various types since I was a boy in 1936—although my designs were not always very successful!

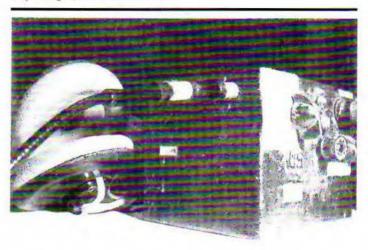

I was able to buy parts in Honolulu, but the tubes, earphones, and battery were those in our GI inventory, so there would be spares available later. The sheet metal for the case and chassis came from a large discarded grapefruit tin can from the mess kitchen. I assembled the radio in our maintenance shop, perched high on the mountain at Kahuku.

It is a four-tube lineup (1T4, 1S5, 1S5, 3S4) all of which are 1.5 volt direct-filament types with a combined current drain of 250 mA. The radio is bandswitched: 0.63–2.2, 2–9, 6–19, 15–22, all in MHz. Tuning was made easier with a bandspread control and also a regeneration control vernier. The audio output could drive either headphones or a small speaker.

#### The need for news on Guam Island

The fight to retake Guam Island from the Japanese began on July 21, 1944, and the island was declared "secure" on August 21. Various companies of our Battalion bivouacked in tent clusters according to company designation, and our stay there lasted until November. During this time there were no newspapers, no movie projectors, no packages from home, and only some V-mail received. We felt isolated on this tiny speck

of an island—cut off from all things familiar. The fellows were desperate to hear some news about our war elsewhere in the Pacific and in Europe. They longed to hear anything from "the States."

The front panel of Doug Kohl's beautifully miniaturized radio features a main tuning knob and tuning bandspread. Audio gain is located well away from the tuning knobs to prevent accidental mistunings. The regeneration vernier also switches the 1.5V "A" battery off, and a pilot bulb reminds listeners to conserve precious battery inventory by turning off the power. Bandswitch and antenna inductance switch are on the right side panel, along with a feedback control which switches off the +90V "B" battery. A left panel includes ground and antenna terminals, headphone jack, plus a battery cable power socket.

The only radio capable of receiving SW broadcasts—including Armed Forces Radio—was mine. After doing my best to be a news "center" and letting others share the headphones, I cannibalized some captured electronic gear and made a small PA system. Wires were strung from tent to tent and speakers hung on the poles. Thus the little radio was able to be heard throughout much of the company area.

I eventually added a refinement: Since the speakers would also act as microphones, speaker lines could be switched to act as the power amplifier input, and the system became an intercom. In that way I would respond to the fellows' requests in the evening to listen to various programming, including Radio Australia and even Tokyo Rose broadcasting from Saigon.

About a month later I created a deliberate catastrophic component failure after my company commander requested to use the intercom part of the system for some of his unpopular purposes. However, the little radio continued to bring in the news on its journey to Leyte, Okinawa, and Japan. It survived the shipment back home, although it is no longer functional.

> Douglas A. Kohl, W0THM 417 6th Ave NE. Osseo MN 55369

## The Wireless Exchange

## The Wireless Exchange is now hosted by:

J. Douglas Hensley, WJ5J 5054 Holloway Avenue Baton Rouge LA 70808

Please send your items directly to Doug.

#### Guidelines for Exchange use are:

- (1) List your antique or vintage needs and wants clearly and simply.
  - (2) List what you will accept in trade.
- (3) List your asking price if no trade is possible.

(4) If you advertise, hold the merchandise long enough for members to receive their *Journal* and read the Exchange column.

(5) Answer all inquiries.

There is no cost to QCWA members.

#### Henry McLaughlin, W8OYV, SK

Henry McLaughlin, W8OYV (QCWA #2735), became a Silent Key on March 16, 1992 at age 84. A resident of Canton, OH for the last 63 years, Henry was first licensed in 1935. He died following a three-month illness.

Henry was instrumental in forming both the Canton, OH Amateur Radio Club and QCWA Chapter 21. He was a charter member of both organizations and had held virtually all offices of each one. Henry had been newsletter editor of both clubs, as well as Chapter 21 Historian.

He was also a member of the Antique Wireless Association and one of his hobbies was rebuilding old radios—including their cabinetry. Henry did volunteer work at the McKinley Museum of Science and Industry in Canton, and was a prime motivator in assembling the Historical Radio Collection and setting up displays.

The latest good works of W8OYV were active participation as Publicity Chairman for the 1991 QCWA National Convention and editing of his final issue of our Chapter 21 quarterly newsletter in November 1991.

Hank will always be remembered and missed by his family and his many friends.

Stanley L. Smith, WA8NZE

#### **Corrections to Earlier Silent Key Listings**

W6BBH W9GDM W2LXQ W2VW

correct date of death is 11/16/91 (by W61L) correct date of death is 06/06/91 (by W9QOM) correct date of death is 08/30/90 (by W2WEX) Joseph W Meyer (QCWA #2985) was erroneously listed as a Silent Key (source 1992 Callbook, page 214). Joe is alive and well! Our apologies have been extended to Joseph.

Ted Heithecker, W5EJ

No. & Street	City	-	State	Zip

With the change of Headquarters, we can no longer accept orders charged to credit cards. Please mail your check to: QCWA, Inc., 159 E 16th Ave, Eugene OR 97401-4017

#### **CERTIFICATES**

MEMBERSHIP CERTIFICATES numbered in serial order are issued to each member. Numbers are not re-issued except to the same member to whom they were first issued.

**QCWA GOLD CERTIFICATES** celebrate the 50th anniversary of licensing. Issued without charge to eligible members upon proof of year of first license.

GOLDEN CERTIFICATES are issued in five year increments —55, 60, 65, 70, 75 year Certificates, free of charge to eligible members.

**50-YEAR CONTINUOUS LICENSING** Gold certificate available to eligible members. Requires submission of proof licensing. There is a \$5.00 fee. Applications available from QCWA Headquarters.

QCWA CENTURY CLUB CERTIFICATE is issued to QCWA members whose age, when added to their number of years as a QCWA member, totals 100 or more. No charge for the Certificate.

MERITORIOUS AWARD is issued by Headquarters, upon request of any active QCWA Chapter. One such award for each Chapter each year. The Award may be given to recognize unusual dedication to QCWA or Amateur Radio. No charge for award.

#### **OPERATING AWARDS**

**QCWA Operating Award Certificates** are issued to QCWA members by the activities manager. Proof of eligibility is required.

QCWA WORKED 50 STATES awards are issued to QCWA members who have contacted members in each state of the Union.

QCWA WORKED 100 MEMBERS awards are issued to QCWA members who have contacted at least 100 QCWA members.

**QCWA WORKED 60 CHAPTER** awards are issued to QCWA members who have contacted members of 60 chapters.

QCWA WORKED 500 MEMBERS awards are issued to QCWA members who have contacted 500 QCWA members.

In addition, plaques are awarded to the highest scoring members for both phone and CW QSO Parties. Runners-up receive certificates.

Deadline for Fall issue: August 1, 1992

Please have your material submitted on time.
